

EXPERIMENT-2

Library book reservation system

AIM

To create a simple Cloud-based Property Buying and Rental System for Chennai City using Zoho Creator to demonstrate the Software as a Service (SaaS) model and manage property buying and rental details.

PROCEDURE

1. Open Zoho Creator and sign in to your account.
2. Create a new application named Chennai Property Buying & Rental System.
3. Create a Blank Form named Property Details.
4. Add the following fields:
 - Property Type
 - Transaction Type
 - Area
 - Place
 - Property Value
 - Rental Range
 - Rental Agreement
 - Property Description
 - Contact Number
5. Set Transaction Type as a dropdown with:
 - Buy
 - Rent
6. Set Property Type as a dropdown with:
 - Residential
 - Commercial
7. Add Chennai locations such as Anna Nagar, Tambaram, Adyar, Velachery, Porur, T. Nagar, etc.
8. Enter the property area, price/rental range, and property value.
9. Set Rental Agreement as a dropdown with Required and Not Required.

10. Create a List Report to display the available property details.
11. Enter sample property records and test the application.
12. Deploy the application on Zoho Creator Cloud.
13. Access the application through a web browser to demonstrate the SaaS model.
