

## **EXPERIMENT-5**

### **Mark Sheet Processing System**

#### **AIM**

To create a simple Cloud-based Mark Sheet Processing System using Zoho Creator to demonstrate the Software as a Service (SaaS) model and process student marks to calculate Average, Percentage, Rank, and Overall Performance.

#### **PROCEDURE**

1. Open Zoho Creator and create a new application.
2. Create a form named Student Mark Sheet.
3. Add the required fields:
  - Name of the Student
  - Register Number
  - Mark 1
  - Mark 2
  - Mark 3
  - Total Marks
  - Average
4. Enter the marks obtained by the student for each subject.
5. Calculate Total Marks by adding all subject marks.
6. Calculate Average using the total marks and number of subjects.
7. Calculate Percentage based on the total marks.
8. Assign Rank based on the student's percentage compared with other students.
9. Create a report to display the student mark sheet.
10. Test the application by entering sample student details and marks.
11. Deploy the application on Zoho Creator Cloud and access it through a web browser.

## IMPLEMENTATION:

## INPUT:

The screenshot shows the 'Student marksheet' form in Zoho Creator. The form is titled 'Student marksheet' and is located within a sidebar menu. The form fields are as follows:

- Register No:
- Name:
- Mark 1:
- Mark 2:
- Mark 3:
- Total:
- Average:

A 'Submit' button is located at the bottom of the form.

## OUTPUT:

The screenshot shows the 'Student marksheet Report' in Zoho Creator. The report is titled 'Student marksheet Report' and is located within a sidebar menu. The report displays the following data:

| Register No | Name   | Mark 1 |
|-------------|--------|--------|
| 13678       | Suji S | 96     |

The report also includes a summary table on the right side:

| Register No | 13678  |
|-------------|--------|
| Name        | Suji S |
| Mark 1      | 96     |
| Mark 2      | 87     |
| Mark 3      | 91     |
| Total       | 274    |
| Average     | 91     |

The report also includes a 'Showing 1 of 1' indicator at the bottom.

## RESULT:

Thus, a Cloud-based Mark Sheet Processing System was successfully created using Zoho Creator. The system stores student details and marks and automatically processes Total Marks, Average, Percentage, Rank, and Overall Performance, demonstrating the SaaS model.
